CUSTOMER Review Report

Faculty Name: Bhaskar sir

INPUTS FROM CUSTOMER

1. Responsibility for CO-PO Mapping

The CO-PO mapping process is carried out collaboratively by a team comprising university faculty, industry experts, and members of the Board of Studies. The final structure is further reviewed and scrutinized by alumni.

2. Time Required to Design a Course Structure

It takes around a day(24hours) to design a course an average of 6-8 owrking hours on daily. A fresh course or new course might take 2-7 days to design including the co-po mapping and matching the blooms level.

3. Engagement Hours for a 3-Credit Subject

A 3-credit subject involves approximately 40 hours average of engagement per faculty.

4. Tools Used by Professors

Professors utilize a combination of previous years' materials, expert advice, and inputs from industry experts. The process is largely manual and may vary depending on the individual faculty member.

PAIN POINTS

The percentage of the syllabus that needs to be modified should be determined on the basis of the comparison between the newly generated course structure and the existing syllabus. This can be done on the basis of the following factors:

- Course topics and modules
- Learning Outcomes (COs)
- Reference materials and content depth

The quantitative approach can be followed by calculating the percentage of the topics that have been modified, added, or removed.

FEEDBACK

The system should also show the percentage of the updated or modified part of the syllabus in the report. This will add transparency to the system.

Comparison should not only be with the previous years' syllabi, but also with the benchmarking with the following universities, which are considered to be good:

- VTU
- IITs
- IIITs
- NITK

Other universities

CONCLUSION

The determination of the percentage of modification in the syllabus helps to develop a clear and quantified measure for evaluating changes in the course structure. This helps to ensure transparency and relevance in the changes by comparing them to previous years and benchmarking them against other reputed institutions.
